## AvidXchange Offers Free Educational Webinar “Spotlight on Energy Compliance” to Shed Light on Overspending

---

**Charlotte, NC (May 29, 2013)** – AvidXchange, leading provider of payment and AP automation solutions for midsize companies, is offering a free webinar, “Spotlight on Energy Compliance” on Wednesday, June 5<sup>th</sup> at 2:00PM EDT. Kristen Thomasino, AvidXchange’s Director of Client Success, will share the latest in energy compliance regulations being passed across the United States, and how planned, new, and existing regulations will impact companies. [ENERGY STAR](#) reporting is becoming the standard for compliance initiatives. This webinar will give attendees a behind the scenes look at metrics that determine a company’s [ENERGY STAR](#) score, and educate them on what companies are doing to ensure success in their compliance initiatives.

“With our roots in AP automation we are very in touch with our clients’ invoicing and payment processes; utility invoices were a pain point for our clients because they didn’t have the reporting capabilities necessary to have visibility into their utility usage and spending. When we recognized this trend years ago we extended our offerings to solve for this specialized need. Now clients are able to pay their utility bills electronically with our [utility bill payment software](#) that has built-in reporting and analytics to optimize spending, is integrated for ENERGY STAR reporting, and comes with a no late fee guarantee,” commented Kristen Thomasino, AvidXchange’s Director of Client Success.

“Our clients experience an average savings of 15% or more annually on utility spending, which greatly impacts their bottom line. Energy efficiency is also a major topic of conversation in our industry, and we strive to be a thought leader in the marketplace. AvidXchange is passionate about educating potential and existing clients, as well as partners about the latest trends in the marketplace. Webinars are a wonderful platform for sharing our knowledge, and we greatly value the opportunity to create a highly educational experience for all attendees,” added Thomasino.
