## AvidXchange Offers Free Webinar “No Paper. No Problems.” Featuring Author Christopher Elmore

---

**Charlotte, NC (March 26, 2013)** – AvidXchange, leading provider of payment and AP automation solutions to midsize companies, announced today that they will be offering a free webinar, [“No Paper. No Problems.”](#), featuring Author and Automation Expert, Christopher Elmore, on Wednesday, April 10<sup>th</sup> at 2:00PM EDT. Christopher Elmore will be teaching attendees how to calculate their cost per process, optimize an existing automation project or start an automation project with all of the tools and knowledge necessary to be successful. Elmore has been helping companies transition to a paperless process for more than a decade, and has gained invaluable insight into the payment and AP industry that he enjoys sharing with companies to prevent them from repeating mistakes that other companies have made. He has written two books, *The 8 Pitfalls of Accounts Payable Automation* and *The Argument to Automate*, which share Elmore’s best practices for implementing and using AP and payment automation while punctuating them with humor as frequently as possible. He has a new book that is due to be published May of this year.

“I have learned a lot from the first two books, and didn’t necessarily want to write a third, but saw there was something missing that needed to be addressed” commented Christopher Elmore. “I truly believe in the power of AP and payment automation, and consider myself a paperless evangelist. I can’t wait to share concepts from my new book, and help people improve their existing automation projects or start an automation project off on the right foot,” added Elmore.

“No Paper. No Problems. *The 4 Keys to Successful Automation*” will be the first time that Elmore shares material from his new book, which will focus on identifying the advocate, the person who can help drive change in your organization, for your automation project. He will also share some concepts from his other books, such as how to calculate Cost per Process for manual AP and payment processes. He will also share the importance of understanding the true value of the time that is freed up as a result of automation. Manual tasks, such as filing
